# Response to Amendment

Claims 1-8, 13-15, 18, 20, and 24-26 are pending in the instant application.

Claims 1-6 and 18 are amended, and claims 9-12, 16-17, 19, and 21-23 are canceled (claims 9-11 previously cancelled). The amendments to the claims are accepted and no new matter is entered. Specifically, the claim objections to claims 6 and 12 are withdrawn and, the 112(2<sup>nd</sup>) rejections of claims 1, 2, and 6 are withdrawn. Since claim 19 is cancelled the 112(2<sup>nd</sup>) rejection is moot as well as the objection to claim 12.

# **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Linda Saltiel (Reg# 51,122) on 7 November 2007.

3. Please amend claim 4 and add the following limitation at the end of claim 4, "the first resistor having a resistance value greater than the second resistor". In the interest of clarity the agreed amended claim 4 is recited in total below.

Claim 4: A circuit substrate, comprising: a substrate; a plurality of emitting elements formed in a display area, each of

10/676,072 Art Unit: 2815

the plurality of emitting elements having a first electrode, a second electrode, and an emitting layer between the first electrode and the second electrode, and the first electrode being a common electrode of the plurality of emitting elements; a common electrode line formed on the perimeter of the display area, the common electrode line connected to the common electrode; a plurality of terminals formed over the substrate, the plurality of terminals including a first terminal and a second terminal; a first resistor connected between the first terminal and the second terminal; and a second resistor connected between the common electrode line and the first terminal, the first resistor having a resistance value greater than the second resistor.

4. Also, please change the title of the invention *from* "Circuit Substrate, Manufacturing Method, Electro-Optical Device, and Electronic Apparatus"

to

- - Circuit Substrate, Electro-Optical Device, and Electronic Apparatus - -

# Allowable Subject Matter

5. Claims 1-8, 13-15, 18, 20, and 24-26 are allowed. The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 2 and 18 are allowable

Application/Control Number:

10/676,072 Art Unit: 2815

for the limitations "the resistance and the another resistance being formed of a semiconducting film" along with "having another resistance value greater than another resistance" (or for claim 18: "the first resistor having a resistance value greater than the second resistor"). Claims 3 and 4 are allowable for at least the limitation "the first resistor having a resistance value greater than the second resistor". Claim 20 is allowed for at least the final limitation of claim 20. The closest prior art to the applicant's invention was the Marchio reference (5,635,822) which did not disclose the salient limitations listed just above. Additional related, but non-anticipating, references are listed in the 892 form.

# Response to Arguments

- 6. The Office agrees with the applicant that the translation of the foreign priority document has overcome the priority date of Yamazaki (2007/0034875) and that the translated document enables the claimed invention.
- 7. The Office also agrees that the Marchio reference does not anticipate the applicant's amended claims. The Office additionally agrees that it is not obvious to modify Marchio (5,635,822) to reject the applicant's claimed invention.

#### Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: US Patents: 7,115,952, 6,696,701, 5,034,845, 4,819,047, 6,967,826, and 5,717,559 as indicated in the 892 form.

10/676,072 Art Unit: 2815

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul A. Budd whose telephone number is 571-272-8796. The examiner can normally be reached on Monday to Friday 8:00 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kenneth Parker can be reached on 571-272-2298. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
